Programming languages : Java, Python(Basics)  
Web Technologies : HTML,CSS,Javascript,React  
Database management: SQL  
Tools/Platforms : VSCode, Github,Microsoft Excel  
Soft Skills : Leadership,Communication,Teamwork,Time Management

## Education

<b>KPR Institute of Engineering and Technology</b>	<b>CGPA : 7.5</b>
<i>B.E Computer Science and Engineering</i>	2026
<b>Carmel Matriculation Higher Secondary School</b>	<b>76%</b>
<i>Higher Secondary School</i>	2022
<b>Carmel Matriculation Higher Secondary School</b>	<b>75%</b>
<i>Secondary School</i>	2020

## Project

### **AI Resume Analyzer** | [Link](#)

Built AI Resume Analyzer, a web app that identifies skill gaps by comparing resumes with job descriptions. Uses Python, FastAPI, NLP, and React with TailwindCSS. Visualizes match scores via pie charts. Deployed backend on Render and frontend on Vercel for instant resume insights.

### **Portfolio** | [Link](#)

Designed and developed a fully responsive personal portfolio using HTML, CSS, and JavaScript. Showcased skills, projects, education, certifications, and internships in a structured one-page layout. Integrated interactive sections and social links to highlight expertise and enhance online presence.

### **Imagify** | [Link](#)

Built a MERN stack Text-to-Image Converter by integrating AI image APIs with user authentication and deployment, and designed a responsive React UI with real-time image rendering and efficient state management for a seamless user experience.

## Internships

### **Techvolt Software Pvt Ltd** | **Front end development**

Acquired strong skills in front-end development with HTML, CSS, and JavaScript. Designed and developed responsive web applications, improving user experience and interface design. Worked collaboratively with a team to achieve project goals and meet deadlines efficiently.

### **Codsoft** | **Back end development**

Learned the basics of backend development, including setting up a server using Node.js and Express.js. Gained an understanding of how the backend processes data and interacts with the frontend, along with basic concepts of authentication and error handling.
